

Skyline®

graphic pod™

Backlit impact with portable flexibility

Skyline's Graphic Pod is great for big, backlit graphics! Add excitement and impact to your trade show exhibit, retail space, or even your lobby. And since it has graphics on both sides you can put it anywhere, unlike traditional lightboxes that must be used with other structures or against walls. Graphic panels are protected and can be easily changed.

imagine that.™

Graphic Pod™

- Trade show or retail applications
- Two-sided backlit or opaque graphics
- Fluorescent fixture provides bright, even lighting
- Graphic panels are removeable and interchangeable
- Assembles without tools
- Available as 6' tower or 3' table – 45" wide x 17" deep
- Laminated wood top is available for 3' table

Self-Contained Trade Show Display

The versatile Graphic Pod is great as a stand-alone display at trade shows. Its seamless graphics can carry product information or set the mood with big, bold images that command attention and add interest.

Trade Show Accessories

Graphic Pods are a perfect addition to your trade show exhibit with its two-sided graphics that attract attention from all directions and can be placed virtually anywhere within your space.

3' Table Attracts Attention

Our Graphic Pod table brings your message out to the trade show aisle and announces your presence to attendees. Also adds valuable workspace.

Retail Stores

Between trade shows, the Graphic Pod can enhance your retail space by supporting displays and in-store promotions.
